Why We Are Unique

Our features provide the best user experience. Our prices make us the most affordable. And our services connect elegantly inside your existing email programs and business systems.

Breadth of Services
RMail empowers you; all of the functionality you need, all in one installation onto the platforms you're already using -- email encryption, certified proof, AI-infused human e-security error prevention, in-the-moment personalized e-security training, and much more.

Simplicity
We understand that the power of e-security technology resides in user adoption. That is why RMail is built with AI that automatically sensitizes users to today's e-security and e-compliance needs, subtly nudging them to make the right email-related e-security decisions.
