

All-in-One in the Inbox

The screenshot displays the Microsoft Outlook interface with the RPostONE for Outlook security panel open. The panel is titled "RPostONE for Outlook" and features the RPOSTONE logo. It includes several sections:

- Track & Prove:** Includes options for "Marked as a Registered Email™ message", "Unmarked", and "Active Tracker™ Protection".
- Encrypt - select primary experience:** Includes options for "Transmission - auto-decrypts for recipient", "Message Level - decrypts with password", and "Custom or Random Password".
- RDocs - Rights Protected Docs:** Includes options for "Track Views", "Track Readers", and "Limit Readers".
- File Share - up to 1 GB:** Includes an "Add Files" button.
- E-Sign - send for signature:** Includes options for "E-Paper", "Smart Tags", "One-Click", and "Sign in Sequence".
- SideNote@:** Includes a yellow box with instructions: "Send a private note only visible to the To, Cc and/or Bcc recipients. 1. Add your SideNote@ message 2. Select recipient group".
- Disappearing Ink™:** Includes options for "To", "Cc", and "Bcc".
- Threat Intelligence:** Includes a grid of status indicators for "AI Auto-Lock", "Eavesdropping", "Reply Hijack", "Lookalike Domain", "AI Recommends", and "Redact & Mask Data".

Additional sections include "Attachments" (Convert to PDF, Word, Excel, PowerPoint, Clean hidden meta-data, Zip compress attachments), "Register Reply" (Receive proof of content & time of replies), "Client/Reference Code" (dropdown menu), "Sender Signature & Authentication" (Sign & time-stamp with Digital Seal, RMail Ink), and "Websites" (RMail Account, RSign Apps, RDocs Help Center, User Dashboard). The bottom of the panel shows "Send" and "Cancel" buttons, a version number "Version 13.0.33.0", and a "Less" button.

RMail installs seamlessly into Microsoft Outlook, Gmail, Salesforce and more to empower users with its full set of email security, DLP, privacy compliance and productivity tools at the click of a button.
