

## Reading & Printing Restrictions

The screenshot shows the RDocs Protected Document Viewer interface. At the top, the RDocs logo and 'Protected Document Viewer' are on the left, and 'POWERED BY RPOST' is on the right. Below the header is a toolbar with search, zoom (100%), and navigation icons. The main content area displays a white modal dialog with a warning icon (a triangle with an exclamation mark). The text inside the dialog reads: 'Document Id: {6436ccb0a37f63a891207bd1}' followed by 'This document cannot be printed.' and an 'ok' button. At the bottom of the viewer, there is a link for 'General Terms & Legal Notices'.

Enable or disable - at will - the possibility for the recipient to print the document, and even set a limit of how many times they can access those files. With RDocs™, users can ensure that their sensitive information is only viewed by authorized parties.
