

Real-Time Insights & Activity Journal by IP

The screenshot displays the RDocs user interface for document management. At the top, there are navigation tabs for 'Send', 'Create', and 'Manage', along with a user profile for 'david@northendassoc.com' and a 'Logout' button. The main section is titled 'Control after sending' and includes a search bar and a 'Kill Selected' button. Below this is a table listing document details: Type (envelope icon), Created (UTC) (12/13/2022 13:23), Subject (NEA Services), Original Document (Pricing List.pdf), Initial Recipient (sam@northendassoc.com), Status (Active), and Security Level (Track Readers). A 'Control Status' section for 'Pricing List.pdf' lists various permissions: Owner (david@northendassoc.com), Pages (1), Sent (12/13/2022 13:23), Launches, Expires, Banned regions, Allowed Domains, IP, Max Reads (Unlimited), Email Response, Watermark (None), and a list of checked permissions: Timestamp, Can Print, Distribution List, Voting, Share Vote, and Identify Leakers. The 'Track Interactivity' section contains a table with columns for Address, First Read, Reads, Total Minutes, Vote, and Active/Banned. The 'Summary' section provides a high-level overview of reads and minutes. Finally, the 'Activity Log' section shows a detailed table of document interactions.

RDocs™ provides the document Originator with detailed insights over reader interaction with their documents: how many times the document was read, for how many total minutes, how each reader voted and more, with all data associated to the reader's IP and (for Track Readers and Limit Readers) by email address. This information can be invaluable to understand the reach and impact of the document, and can even be exported via API or as a CSV file for marketing purposes.
